

Cantazoo

KASPER range

(Reference: 402135)

Presentation

COMPLEMENTARY FEED FOR RED FACTOR WATER FOWL

Animal feed supplement for aquatic birds with red factor. Cantazoo contains the red colorant canthaxantine and bêta-carotene. The product is especially developed for birds with the red factor, like ibises, flamingos and pelicans. Cantazoo does not contain additional vitamins and minerals.

Pack size

In powder form
Bucket of 4 kg

Recommendations

It is easy to dose and it is double packed in buckets along with two dosage beakers: the smaller one contains 3 g and the larger one 20 g. Administer Cantazoo by mixing it with the daily feed ration.

Recommended dose:

- 1% of the daily food intake
- During the moult: 2% of the daily food intake
