## Nekton Lori

Nekton range

(Reference : 402068)

### Presentation

NEKTON-LORI is a complete diet in water-soluble powder form for all kinds of Lories and Hanging Parrots.

NEKTON-LORI enables the owner to provide his bird with just the right type of nutrition because of its well-balanced composition. NEKTON-LORI is absolutely safe and compatible, even for such delicate birds as Chamosynas

### Recommendations

Nekton-Lori provides complete nutritional assurance and is well assimilated by the body, due to the high level of protein, even in species of lories, such as Chamosyna which are very sensitive nutritionally.

### Pack size

Becket of 6kg (ref. 402068)

### Composition

Sugar, vegetable by-products, vegetable protein extract, wheat, biscuit, pollen, minerals, oil, fats

Crude protein	%	21.90
Crude fat	%	3.50
Crude fibre	%	0.30
Moisture	%	5

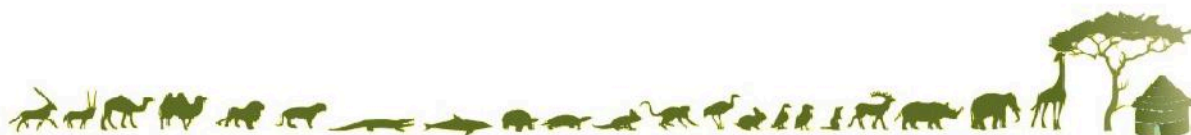

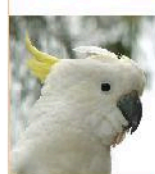

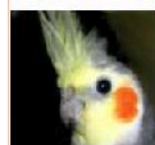

### Instructions

Easy to use, just add water and stir.
