## NutriBird A 19

VERSELE LAGA range

(Reference: 403xxx)

### Presentation

NutriBird A 19 is a complete bird food for the hand-rearing of macaws, eclectus, hawk-headed parrots, African grey parrots and other baby birds with a high energy requirement. Scientifically formulated for optimal growth.

### Recommendations

Important: the mixture should be prepared fresh before every meal! The mixture is, therefore, best prepared in small amounts.

### Pack size

Pots 800 g (Ref. 403046)  
Buckets 3 kg (Ref. 403226)

### Composition

Bakery products, vegetable protein extracts, derivatives of vegetable origin, oils and fats, sugars, minerals, vitamins, methionine, lysine, yeast, trace elements, probiotic (*lactobacillus sp.*), enzymes

Crude protein	%	19
Crude fat	%	12
Crude fibre	%	3
Crude ash	%	6

### Instructions

NutriBird A 19 hand-rearing food is prepared by adding warm water. The food-water ration changes with the age of the baby-bird and must be carefully adapted. Use the following chart to prepare the food. For the first preparation, it is recommended to weigh out precisely the required amounts.

Mix the NutriBird A 19 rearing food and the hot water in a clean bowl in volumes as recommended in the chart. Because tap water may contain harmful bacteria, it is advisable to boil the water before or to use bottled water.

The mixture should be stirred vigorously. Allow to settle for a minute. If the preparation is carried out correctly, a porridge consistency should be obtained.

Allow the porridge to cool down to 39°C. Before serving the mixture, it should be stirred vigorously once more so that water and food do not separate.

Age	Volume	
	A 19	Water
Hatching – day 2	1 part	6 parts
Day 2 – day 3	1 part	5 parts
Day 3 – day 4	1 part	4 parts
Day 4 – day 5	1 part	3 parts
Day 5 – weaning	1 part	2 – 2.5 parts
